DEPARTMENT OF ECOLOGY
S W REGIONAL OFFICE

Dear Ms. Blomstrom:

This letter is a courtesy application from the Jamestown S'Klallam Tribe for a water right on reservation lands located near Sequim. The water will be used for a Tribal business (gaming facility) to be constructed in the summer of 1994. Although the Tribe maintains jurisdiction over reservation lands, we are submitting this application based on our cooperative working relationship with the Department of Ecology regarding water resource issues.

The engineers who have been retained by the Tribe for the project have identified that the existing well will be adequate for the project design. Additionally, they believe that the project will not create or exacerbate problems of seawater intrusion or instream flows in the project vicinity, and have specified a maximum pump rate of 10 gpm to minimize the risk. As you are aware, the Dungeness-Quilcene Water Resource Pilot Project is in the plan drafting phase, with a complete plan anticipated in June, 1994. We have tried to address the regional water resource management concerns of the DQ process through our facility design and operational plans.

We have attached, for your information, the hydrologic analyses of this project: Jamestown S'Klallam Casino Project Preliminary Hydrogeologic and Hydrologic Considerations and Impact Mitigation, prepared by Northwestern Territories, Inc. for the environmental assessment, which contains the water resource analysis and has undergone public notification procedures. We have received a comment letter from M. Vernice Santee of the Dept. of Ecology Environmental Review Section dated April 5, 1994. Please feel free to contact John Robben, the Tribal Business Development Director, if you have any questions.

Thank you for your review and input.

Sincerely,

W. Ron Allen
Tribal Chairman/Executive Director

Dear Ms. Blomstrom:

Enclosed, please find a check for \$100.00 in payment of the surcharge on our water rights application of May 9, 1994. We previously submitted the \$10.00 fee with the application form.

Please let us know if there are any other requirements for obtaining the water rights on this property.

Sincerely,

John Robben
Director Economic Development

Sequim, Washington 98382

Dear John Robben:

We are in receipt of your water right application. This notice is to advise you the 1993 Legislature passed a new law requiring applicants to pay a \$100.00 surcharge on each water right application submitted between July 1, 1993 and June 30, 1994. This new law applies to your application and is in addition to the \$10.00 minimum fee that must accompany your application, as indicated on the application form. Ecology can not further process your application until the fee is paid in full.

We are requesting you pay your \$100.00 surcharge upon receipt of this letter. If we do not receive payment within 30 days, we will send you an official notice and billing by certified mail. If payment is not received within 60 days from receipt of that notice, Ecology will reject your application, and your priority date will be lost. There will be no further notice regarding payment of the surcharge. Payment must be by check or money order (not cash) to:

Department of Ecology
Water Resources
PO Box 47775
Olympia, Washington 98504-7775

If you have any questions regarding the surcharge or the status of your application, please call our office at (206) 407-6300.

Sincerely,

Gale Blomstrom
Water Resources Supervisor

May 18, 1994

Dear Water Right Applicant:

As you may recall, the 1993 Washington State Legislature passed legislation intended to enhance the Department of Ecology's program for water right decisions. The bill created a Water Rights Fees Task Force to examine the process for making water right decisions, recommend efficiency measures, and develop a new water right fee structure to support 50 percent of the activities and services surrounding water right decisions. Half of the program's funding for water right decisions during the second portion of the biennium was expected to be generated from new fees. Unfortunately, the task force recommendations on increased fees did not pass the 1994 legislature and Ecology has been forced to cut 35 staff.

With help from my staff and representatives of the many water interests, I have examined priorities for our program. Rendering water right decisions is listed among our new priorities. However, due to specific language in the budget, staffing devoted to this activity has been cut significantly. Effective May 1, 1994, we will give priority to water right applications needed for emergencies concerning public health or safety. Priority also will be given to requests for water right changes and transfers and short-term authorizations for public projects, such as road-building. Decisions on other water right applications will be delayed, probably for several years.

This means that the majority of new water right applications and many applications for change will continue to await decisions. You will be notified when we are ready to work on your application. Your priority date will be maintained during this waiting period.

Please review the attached Focus Sheet for other priorities and more details. If you still have questions, please call the person listed on the attached sheet. To better manage the use of staff time, I have set office hours as follows:

Telephone Calls
Mondays and Wednesdays
8:00 a.m. to 4:00 p.m.

Walk-ins
Tuesdays and Thursdays
8:00 a.m. to noon

Our limited staff will respond to your questions and concerns as soon as possible. Special appointments can be arranged as necessary.

Sincerely,

Carol L. Fleskes
